The 28th Congress of the International Society for Forensic Genetics

PRAGUE, 9 – 13TH SEPTEMBER 2019, THE CZECH REPUBLIC, PRAGUE CONGRESS CENTRE

(<https://www.isfg.org/>)

WELCOME

Dear Colleagues!

The river of time flows at the same pace, bringing us from our past to our future in a boat called "now", despite our attempts to accelerate or slow it down. Though the ship of forensic geneticists' community will just arrive to Seoul in few weeks, we already started preparations for the following event that will be held in Prague, the Czech Republic. It is my great honour to greet you all on behalf of the organizers of the 28th International Congress of International Society for Forensic Genetics (ISFG), the Czechoslovak Society for Forensic Genetics and C-IN.

For centuries, Prague has been considered magical, inspiring, and mind-opening place. During his reign, Rudolph II, the Holy Roman Emperor and intellectual devotee of occult arts and learning, supported and invited to Prague a lot of notable philosophers and thinkers, including astronomers Tycho Brahe and Johannes Kepler, and alchemists Edward Kelley and John Dee. This renaissance "think-tank" concentrated at Rudolph's Court in Prague helped to seed what would be later called scientific revolution. It will be extremely interesting to see how the global meeting of forensic geneticists in Prague influences the course of scientific history!

We will do our best to organize an exciting and memorable congress where new areas of forensic genetics, new theoretical and technological advances in the field, as well as variety of cultural programme will be presented.

We invite all scientists interested in forensic genetics to join us 9 -13 September 2019 in Prague.

Jiří Drábek

Congress President

The 28th Congress of the International Society for Forensic Genetics

PRAGUE, 9 – 13TH SEPTEMBER 2019, THE CZECH REPUBLIC, PRAGUE CONGRESS CENTRE

Alchemy of forensic genetics

ABOUT PRAGUE

Prague never lets you go... this dear little mother has sharp claws.

Franz Kafka

The capital city of the Czech Republic is poetically considered to be the heart of the European continent. The history is deeply rooted in every building and you can feel the cultural spirit in every step. Different architectural styles have been preserved throughout the wars and years of the communist era so the visitors may compose their own image of Prague. With the Prague Castle, the largest castle complex in the world on one side, facing the Dancing House representing the contemporary architectural tendencies on the other side, visitors can appreciate the centuries of history embedded in the buildings. Prague is not only a city of historical monuments, but also a city for living, where culture is an integral part of things. It is not surprising to find that it has been a source of inspiration for famous Prague residents and personalities, such as Einstein, Kafka, Mozart, van Beethoven.

Congress
Portal
(<https://www.czein.org/cmportal/V15/portal/ISFG19>)

At the same time, growing since the Velvet Revolution, Prague, the meeting point of Eastern and Western Europe has quickly become a site to host multiple scientific conferences and cultural events. The same goes for movie makers who just love coming to Prague and making it the scene of their movies. You may have seen Prague in motion pictures such as *The Bourne Identity* (2002), *The Illusionist* (2006), *Casino Royale* (2006), *Mission: Impossible* (1996), and *Amadeus* (1984).

Prague isn't just a city, but an entity of some kind.
